

EMERGENCY'S™

Bolsa de Emergencias SVB

EM13.022

Emergency bag subdivided and designed to facilitate transport and accommodation in various vehicles. Its central pocket, with a top opening and its internal, honeycomb-like structure, can be quickly adapted to locate all the materials housed inside. It also has 4 zipper side pockets, two on each side, duly identified with the color code and developed to independently house all the respiratory, circulatory, surgical and pediatric material.
